2278. Percentage of Letter in String

```java
class Solution {
    public int percentageLetter(String s, char letter) {

        int count=0;

        if(s.length()==0){
            return 0;
        }

        for(int i=0;i<s.length();i++){
            if(letter==s.charAt(i)){
                count++;
            }
        }

        //O(n)
        return (count*100)/s.length();

    }
}
```
